

Dr Manzar Saeed

MBBS FRCS

Dr Manzar Saeed is a fully accredited Consultant Ophthalmic Surgeon at Queen Elizabeth Hospital NHS Trust, King's Lynn, Norfolk.

He specialises in small incision cataract surgery and has performed thousands of lens implant procedures. As well as being an experienced user of multifocal, accommodative and intraocular lenses, Dr Saeed is also a retinal specialist with expertise in posterior segment diseases such as retinal detachment, macular disorders and diabetic eye disease. His special area of interest is presbyopia and he also offers a full range of refractive surgery procedures including LASIK and intraocular contact lens (ICL).

Dr Saeed has published a number of articles relating to his area of expertise, the details of which may be found at Biomedexperts.com. He has been an external examiner for MSc in Optometry at City University, London.
